EXPERIENCE

- 

CTO

05/2025 - Present

APAS Consulting LLC

New Delhi / Miami FL

Technology Solutions for Government & Public Infrastructure (US)

 - Lead an engineering and product team building GraphRAG-based AI for U.S. water-utility regulatory compliance (Miami-Dade County Code Ch. 24 Environmental Code & 33, Miami Building Code).
 - Built a multi-jurisdiction graph-linking model unifying 7+ Miami-Dade municipalities (Coral Gables, Homestead, Opa-locka, Pinecrest, et al.) under a shared regulatory ontology.
 - Built NIDD — AI Semantic Infrastructure Data Normalization System — that maps messy utility/SCADA data into a canonical ontology of 818 asset classes, underpinned by a pump-station model spanning 10 systems, 30 components, 147 markers, 126 cascade relationships, and 73+ governance rules.
 - Implemented dual-model strategy: local fine-tuned AI vs. frontier models. Each workflow by frontier models also uses self-hosted APAS (LoRA/QLoRA), ensuring on-prem AI with zero data exit. Frontier models used for clear advantages. Fine-tuned models met 90% confidence bar before shipping.
 - Architected and migrated 10 production knowledge graphs — 91,816 nodes / 188,222 relationships — from Neo4j AuraDB to a self-hosted cloud fleet at 100% data integrity, cutting ~\$28,800/yr in cloud cost.
 - Authored the team's engineering standards — "Vibe Coding Playbook" and Communication Manifesto — and ran tech hiring (IIT Delhi research internships).
- 

Director

11/2023 - 04/2025

CarboCap Technologies

New Delhi

SaaS focused on Carbon Credit sales and lifecycle management engine

 - Earned 2 EoI and 1 LoI for various voluntary carbon market projects. Managed certifiable high-quality delivered credits of recent vintages worth >\$20MM.
 - Designed prototype Carbon Credit lifecycle management single window SaaS, integrated with web3 and leveraged KANO and RICE models to integrate impact assessment framework along price discovery enablement.
- 

Chief Product Officer

04/2023 - 10/2023

Datar Security Service Group

New Delhi

Infrastructure company of 12000+ employees, INR600Cr turnover

 - Increased product design efficiency by 30% by managing cross-functional teams and handling 5 product interviews. Designed 2 carbon project proposals.
- 

Head of Technology

09/2020 - 03/2023

Aetos DigiLog

Noida

4PL Logistics company with prominent warehousing vertical servicing clients like ITC, Emami, Jakson and SMEs

 - Integrated SaaS acquisitions into the principal business and drove P&L through resulting synergies. Operating ratio was lowered by 40%.
 - Delivered integrated cloud-based logistics platform for mid-stream inventory management, transportation, and e-procurement, pushing the fulfilment score of 3 customers past 98%. Delivered platform manages GMV worth ~\$39M.
- 

Principal Consultant

07/2020 - 08/2020

Aetos DigiLog

Noida

 - Setup technology team, Managed 21 people across 3 technology verticals. Wrote working paper - shop floor adoption of technology.
- 

Principal Consultant

04/2020 - 06/2020

VIZARA Technologies Pvt

New Delhi

IIT-D, FITT incubated AR/VR/MR/3DP company

 - Solution design and bid management for government tenders. RFP response secured projects worth 2.65 Crore during 1st lockdown.

SUMMARY

Strategy and technology executive with 13+ years leading complex programs and driving stakeholder engagement across sectors including government, SaaS, and supply chain.

Recognized for architecting AI-driven compliance solutions, managing high-value carbon credit projects, and reducing operational costs by 40%. Adept at leveraging data analytics, AI governance, and program management to optimize P&L performance and accelerate business growth.

SKILLS

Leadership · Program Management · Project Finance · P&L Ownership · Advanced Stakeholder Management

Management Consulting · Voluntary Carbon Markets · Research

Frontier & Local Model Integration · Prompt & context engineering · LLM Confidence Scoring & Calibration · GraphRAG & RAG Architecture · Fine-tuning with LoRA / QLoRA · Model Evaluation & Benchmarking · Knowledge Graph & Ontology · CI/CD Pipelines for AI · AI governance · Workflow automation (n8n) · Adversarial analysis

Data Analytics · DPR/RFP Writing · Solution Architecture · System Design · Data Storytelling · Algorand Blockchain · TCO & Cloud Economics

KEY ACHIEVEMENTS

Compressed Gas Distribution Presentation MoPNG

Work product was presented by Hon. Minister of Petroleum and Natural Gas. Program was called "game-changer on the path to remove energy poverty".

EXPERIENCE

Senior Consultant

04/2019 - 03/2020

KPMG India

Gurgaon

- Proposed policies for EODB (Ease of Doing Business Index now WB-BEE Business Enabling Environment) covering property registration and new business setup. Led collaboration with Ministry of Commerce, World Bank and nodal agencies. Boosted India's ranking from 130th to 63rd, leading South East Asia in 2019.
- Led data security and cloud solutions for NLP (National Logistics Portal), gaining Commerce Secretary approval for a 5-year rollout. Assessed risk for e-marketplace integration with customs/government. ULIP (Unified Logistics Integrated Platform) integration underway to cut logistics cost from 13% to 9% of GDP.
- Produced insights for 2020 National Conclave on Natural Gas sector. Established secretariat, collaborated with Indian Oil, GAIL, HPCL, BPCL, IGL, MGL. Identified INR 4 lakh crore opportunities and employment for 4.5 lakh individuals in 10 value-added services.
- Assessed digital readiness of ports pan India and created framework for real-time data system (RTDS) basis Digital Maturity Model. Comparative analysis of the Data Protection Bill 2018 with GDPR and EU-US privacy shield considering new systems proposed.

Innovation and Technology Lead

11/2016 - 09/2017

Handygo

New Delhi

Agritech, one of India's largest agriculture input marketplaces

- Designed and delivered hyperlocal navigation module for multimodal deliveries in tier 2/3 locations: ~30% OPEX savings via higher delivery throughput.
- Drafted investment memorandum with KPMG: primed 'Behtar Zindagi' agro-tech SBU for funding. Post raise, monthly revenue increased from ~\$28K to ~\$1.1M.

CTO

03/2016 - 10/2016

1Application

New Delhi

Ed-tech startup with pan India presence

- Directed technical delivery of SaaS, a student lifecycle management system handling requests for over 500 institutions across India. Onboarded 5000+ users.

Solution Manager

02/2015 - 02/2016

DXC Technology

Noida

- Managed the implementation of IT infrastructure projects of AIG, Rolls-Royce, and Bombardier across multiple geographies, as SPOC halved transition time in technical proposal management. Received special recognition for managing cost-to-performance (IT infrastructure) at Rolls-Royce data center.

Associate Software Engineer

02/2014 - 02/2015

DXC Technology

Noida

- Reduced transaction related support queries by 30% (Insurance domain) by modernizing legacy adapters and developing microservices for policy management.

Business Analyst

06/2013 - 01/2014

LaunchArk Technologies

New Delhi

SaaS company incubated with engineering college

- Analyzed the product requirements for a tracking interface for individuals traveling in urban India, added 2 features to core module.

KEY ACHIEVEMENTS

CII Digital Transformation Award

"Innovative Best Practice" category

Shortlisted for Algorand Startup Lab Program

Listed as top upcoming Carbon Credit company on F6s
